

## Constant Voltage Drivers | Alimentatori a Tensione Costante

Every PLG unit needs the correct driver. It must be selected according to the maximum number of LEDs to connect. In each PLG datasheet you will find the unit's power in Watt and the current to be used (e.g. 1W/24V).

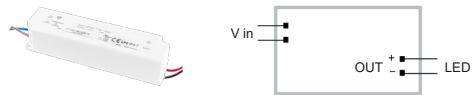

Ogni apparecchio PLG richiede l'abbinamento del giusto alimentatore che deve essere scelto in base al numero massimo di LED collegabili. In ogni scheda tecnica dei dispositivi PLG è segnata la potenza espressa in Watt e la relativa corrente di alimentazione (es.1W/24V).

### DRIVERS 24V

CODE	AL018
VOLTAGE	100 ÷ 240V
POWER	18W
V OUT	24V
SIZE (mm)	140 x 30 x 22
IP RATE	IP67

CODE	AL035
VOLTAGE	100 ÷ 240V
POWER	35W
V OUT	24V
SIZE (mm)	148 x 40 x 30
IP RATE	IP67

CODE	AL060
VOLTAGE	100 ÷ 240V
POWER	60W
V OUT	24V
SIZE (mm)	162,5 x 42,5 x 32
IP RATE	IP67
